## **Hands - on Learning Lab**

**Lab Name: Introduction to DNN – Web Content Management**

**Description:** Your website is one of your most valuable assets. DNN is an enterprise solution that helps bring your website to life with captivating content and engaging interactions. This lab is designed for both content editors and website administrators. Come in and learn how to use DNN to your advantage. The lab will provide users an opportunity to get hands on experience doing the following tasks:

- Adding a new page
- Adding new modules to a page
- Changing the look and feel of your site by applying ‘Skins’
- Creating security roles
- Creating user accounts
- Adding workflows to ensure that your website is reviewed and approved before being published
- Using the Open Document Library to share and collaborate on documents.

**Lab Name: Microsoft**
